### 3. Basq New York's Lavender Sugar Perfecting Scrub

I don't know about you, but summertime means a lot more paying attention to the condition of my legs since they are finally coming out of my winter cocoon of skinny jeans and Frye boots. So, how do I prep my legs for summertime? Aside from shaving regularly for the first time in 6 months, I have become obsessed with Basq's Lavender Sugar Perfecting Scrub. It's billed as great stretch mark prevention for pregnant mamas (and I'm sure it works beautifully in that regard, so pregnant mamas take note!), but I use it on my legs in the shower to get rid of some of that wintry dry, itchy skin. It's really a lovely product with the added bonus of being infused with lavender which, for this mama, is the most calming scent around.
